There are many different types of Windows games, but one type that stands out is the flight simulator. With these games, you take on an intense aerial journey like never seen before. So if you're into that type of game then this is for you. These flight simulators will challenge your skills in different ways, which will change depending on the game and its setting. Some challenges might include speed, precision flying, or doing aerial tricks like loops and barrel rolls because these simulations are packed with plenty of features to keep players entertained over time. The Microsoft.Flight.Simulator.X.Gold.Edition (FSX) is one of the most popular and engaging flight simulators in the world and it was developed by none other than Microsoft themselves! This is a great game for anyone who's into flight simulators and wants to try something new with an extra dose of realism to boot. The Gold Edition that is featured in this bundle comes packed with exciting additional features such as new airplanes, missions, and even time period settings like the roaring twenties! Now that's impressive! These extra additions will definitely take your flying skills to the next level, which is exactly what you're looking for if you're an avid fan of this genre. With the Microsoft.Flight.Simulator.X.Gold.Edition (FSX), you can experience the thrill of flying! And with this bundle, experience an even more thrilling and fulfilling flight simulator, as well as a great deal more, all for one low price! • Promo Codes: Yes

The Microsoft Flight Simulator X Gold Edition Product Key is now available to download for free for those who pre-ordered the game from Microsoft Store and those who want to test it before purchasing it can now download the product key from their account's page. Once you have downloaded the Gold Edition of Microsoft Flight Simulator X, you can activate it by using any one of the following available methods: 1. Enter the product key when the Flight Simulator prompts for it. 2. You can enter the product key when you first launch FSX, in the pop-up activation dialog box (usually in white text on a black background). 3. If you upgraded from a previous FS9/FSX edition, and if your old version of FS9 or FSX is registered with an MS account (Live ID), then your old copy of FS9 or FSX is automatically detected and activated during installation. 4. If the above steps do not work, you need to activate FSX over the Internet: Select Activate Now on the "My Account" tab, and follow the instructions on screen. This will verify your computer and download an activation file which has a unique verification number for your copy of FSX. You need to activate within 30 days of installation for this method to work. 5. If none of the above methods work, then contact support@microsoft.com with a brief description of your problem (noting that you entered a product key and it did not work), and they may be able to help you out.
